

Ametco Manufacturing, is proud to announce that they have been certified as an Amazing Workplace.

Amazing Workplaces have employees that are genuinely happy working for their company. This is no small achievement. Amazing Workplace Certified™ companies are companies where 85% or more of anonymously surveyed employees have said they are happy or very happy at their workplace.

The certification process starts with an Employee Happiness Survey™, designed to measure employee happiness across critically important workplace areas: engagement, leadership, culture, productivity, job, pay & benefits, workplace, and more.

Once complete, workplaces have access to the most comprehensive online happiness improvement platform anywhere – created to empower workplaces to take action based on employee feedback. The commitment to take action based on employee feedback is the key to improving employee happiness and creating more amazing workplaces for all.

Ametco Manufacturing is dedicated to improving employee happiness, and this recognition as Amazing Workplace Certified™ is a direct result of that dedication.

About Amazing Workplace®

Amazing Workplace - the Employee Happiness Company. What exactly does Amazing Workplace do? Glad you asked! We measure employee happiness and help workplaces improve and maintain employee happiness. Using our anonymous Employee Happiness Survey™ to unlock Magic Insights™, workplaces can grow and maintain happiness. We even help you create a Happiness Action Plan™ that you can build and pursue year after year to see real, amazing results.

Why the focus on employee happiness? We reviewed 30 years of world class studies and surveys from MIT, Harvard, Oxford, the Conference Board, and hundreds more.

Not surprisingly, we discovered that happiness is the magic that makes a company truly amazing. Employee happiness reduces turnover, increases productivity, strengthens company reputation, reduces employment liability from lawsuits, broadens diversity, provides better customer satisfaction, and supercharges talent acquisition. Best of all, happier workplaces are proven to consistently have better financial performance, showing 50% to 150% better revenue growth than their peers with lower happiness.
